

a message for all

MEN

we want you to know about an extraordinary organisation that was created with the specific intention of transforming the lives of men. It was founded and developed by men for men. **the mankind project** is a non-hierarchical, non-political, non-religious organisation that now offers its flagship weekend retreat **the new warrior training adventure** in eight countries.

here is an opportunity to stop the clock, climb to a high vantage point, reset your heading, and engage life with renewed clarity, insight, energy and effective new tools for reshaping your world. **expect** to work on the way you approach primary relationships, fatherhood, work, integrity, self-confidence, the past, the future...every aspect of your life as a man.

"...I showed up at the training with my diploma [in scepticism] in one hand and my "bull" meter on red alert in the other.

I came away more in touch with my heart, the wild man in me, my desire to live in integrity with who I am and what I'm doing with my life."

Will Walters, columnist

expect challenge, expect support, expect lasting positive change.

all women and men are invited...

to learn more about the Mankind Project and hear the experiences of men who've done the training. MKP does not practice any form of hard sell. We do what we do, tell others about it, and welcome any man who chooses to do this work. There will be three trainings in Perth, WA in 2012. March, July, October. MKP also has a sister organisation for women.

information evening

7.00 for 7.15 pm, Thursday 7th June, 2012
